### OASIS BERCO SOFT PODS ARE "PLUG & PLAY"

An Advanced Power Strip (APS) comes installed in the corner of your Soft Team Pod. ALL electrical components (occupancy sensor, fan, LED light, power/USB unit) plug directly into this unit, then the 12' cord from the APS runs from the corner panel through the inside of the side wall and out through a grommet, leaving about 6' of cord to plug into your standard 120v wall outlet.

**ETL LISTED TO CONFORM TO UL STD 962**
